The Addiction Technology Transfer Center (ATTC) Network, and the Prevention Technology Transfer Center (PTTC) Network are facilitating a FREE, national online discussion and resource sharing opportunity for the substance use (SU) prevention, treatment, and recovery workforces focused on emerging issues around social determinants of health (SDH) and COVID-19.

Overview: Join us to huddle with other SU prevention, treatment, and recovery workforce professionals and engage around key emerging issues related to SDH, strategize and share ways to address these issues, and identify key tools and resources useful to the field. We will host one initial open Listening Session (90 minutes) to frame the upcoming Strategic Discussions and share key resources. This Listening Session will be followed by a series of Strategic Discussions (60 minutes) where invited speakers from the field will discuss emerging issues, strategize and share ways to address these issues, and identify key tools and resources useful to the field. The Listening Session will not be recorded, but we will capture key themes from the discussion; the Strategic Discussions will be recorded and uploaded to the ATTC COVID-19 resource page along with any shared tools and resources.

The series will feature:

- Live, 90-minute Listening Session via Zoom video conferencing to frame emerging issues and use discussion as a tool to empower the SU prevention, treatment, and recovery workforces to identify strategies and emerging best practices.
- Live 45-60-minute strategic discussions twice a week focused on data and strategies to address the emerging issues of specific population groups.
- Each Listening Session will include at least 45 minutes of structured conversation and information exchange and share key resources and lessons learned.
- Each Strategic Discussion will engage people actively addressing issues of SDH in the field, along with a panel of experienced providers and others addressing SDH.
- Key themes and resources will be collected from each session to support the work of the SU prevention, treatment and recovery workforces.
- Training tools, checklists, and other relevant resources

Who Should Attend?

All substance use prevention, treatment, and recovery workforce professionals.

Registration

No registration required for the live sessions. Simply click on the zoom link at the appropriate date and time to join the discussion. No CEs or certificates of attendance will be provided for these sessions.
When?

1. **Wednesday, April 22: 2-3:30 pm ET: Listening Session 1:** How COVID-19 is differentially impacting SU prevention, treatment and recovery in communities of color and/or underserved communities: How can we address this?  
   Password: 327354  
   Session 1: Co-facilitator bios

2. **Tuesday, April 28: 2-3:00 pm: Strategic Discussion 1:** Health Disparities and the Impact on COVID-19 on African-American and black community.  
   Password: 873512

3. **Thursday, April 30: 2-3 pm ET: Strategic Discussion 2:** Strategies to Support the LatinX community.  
   Password: 472743

4. **Tuesday, May 5: 2-3 pm ET: Strategic Discussion 3:** American-Indian/Alaska Native communities: Trauma-Responsive Approaches to Support the Communities.  
   Password: 721216

5. **Thursday, May 7: 2-3 pm ET: Strategic Discussion 4:** Asian-American communities and Addressing Stigma.  
   Password: 946684

6. **Tuesday, May 12: 2-3 pm ET: Strategic Discussion 5:** Wrap-up Session Racial equity and health disparities in the age of COVID-19: What new strategies are needed.  
   Password: 100817

Join one, two, three ... or all of the live sessions! Or combine your live session attendance with a session brief and review of a curated list of resources that will soon be available our ATTC [COVID-19 web page](#). Customize the experience to meet your needs. No prerequisites or required attendance.

**Resources:**
Visit our ATTC and PTTC COVID-19 resources pages for a list of helpful resources related to substance use prevention, treatment, and recovery, COVID-19, and social determinants of health to get you started.
