Funded by the President's Emergency Plan for AIDS Relief through
the Substance Abuse and Mental Health Services Administration

MISSION *and*
VISION

Ukraine

THE INTERNATIONAL PEPFAR
ADDICTION TECHNOLOGY
TRANSFER CENTER

UC San Diego
SCHOOL OF MEDICINE

The primary MISSION of the International PEPFAR Addiction Technology Transfer Center – UKRAINE is to assist the government and people of Ukraine in building competencies and capacities in responding to the HIV epidemic among people with substance use disorders and other key populations.

The Center will utilize the world-class resources and outstanding international technical assistance and training capacities of its partner organizations.

ATCnetwork.org/ukraine

Our fundamental belief is that any treatment activity should be able to:

- Reduce the symptom (compulsive drug use);
- Prevent complications (HIV, Hepatitis C, Tuberculosis, overdose, etc.);
- Improve psychosocial functioning;
- Preserve human rights.

Therefore, the overarching goal of this project is capacity building to support the development of a model and workforce for the integrated care of HIV/SUD/MH workforce at multiple levels in Ukraine to develop a system capable to accomplish these goals.
