3. Social development

What drugs are being used?
Who is using them?
How often are they using?
Who is experiencing problems?
What is their risk profile ?
What correlations are there ?

What should families do?
What services are available?
Are medications needed?
What is working ?
How do we monitor “success?”

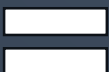

Substance use module

- Household screening
- Individual assessments

LISA Process

- Prevalence data
- Types of drugs
- Method of use
- Resources available
- Community support

- Extent of problem
- Services needed
- Services available
- Gaps
- Education and Training needs
