

Vaping: The Next Generation

A World No Tobacco Day Webinar

MAY 31, 2019

DETAILS & LOGISTICS:

Date: Friday, May 31, 2019

Time: 1:00pm—2:00pm EST

Where: Virtual

DESCRIPTION:

The goal of this webinar is to familiarize attendees with e-cigarettes and their usage, their flavors, and their regulation, or lack thereof.

This webinar will explore:

- What is in electronic cigarette juices?
- What is in electronic cigarette aerosol?
- What are the health impacts of e-cigarettes?
- What is the intersection of tobacco, marijuana and e-cigarettes?
- How are e-cigarettes regulated - or are they?

PRESENTER:

Phillip Gardiner, Dr. P.H., is a Public Health activist, administrator, evaluator and researcher.

Throughout his research career, Dr. Gardiner has maintained his community activism to address racial disparities in health, through writing, organizing, evaluating and public speaking.

Currently, Dr. Gardiner is the UC Smoke and Tobacco Free Fellowship Awards Program Officer for the Tobacco Related Disease Research Program (TRDRP), University of California Office of the President. He also oversees the scientific inquiry associated with e-cigarettes and other new products (e.g. IQOS). In this regard, Dr. Gardiner speaks regularly around the country on the Triangulum: the intersection of tobacco, marijuana and e-cigarettes.
