

Medication-Assisted Treatment Approaches for Alcohol and Opioid Use Disorders (MAT-A)

Sponsored by:

California Department of Health Care Services (DHCS), UCLA Integrated Substance Abuse Programs,
Pacific Southwest Addiction Technology Transfer Center & NCADD

Date and Time:	Tuesday, November 12, 2019, 9:00 am– 4:30 pm Sign-in will begin at 8:30 am and the training will begin promptly at 9:00 am.
Location:	NCADD 4626 N. Grand Avenue Covina, CA 91724 <i>Minimal parking available onsite. Carpooling strongly suggested.</i>
Speaker:	Albert Hasson, MSW , UCLA Integrated Substance Abuse Programs
Who Should Attend:	This six-hour training is free and is open to staff who are interested in Medication-Assisted Treatment Approaches, including: <ul style="list-style-type: none">• Psychologists• LMFTs and LCSWs• Registered Nurses• Certified Substance Use Disorder Treatment Counselors• Other Behavioral Health Specialists/Clinicians
Training Description:	The purpose of this full-day training is to provide participants with a detailed overview of medications that have been shown to be effective as a component of the treatment of alcohol and opioid use disorders. Topics will include: the context for medication-assisted treatment (positive and negative perceptions), the epidemiology of alcohol and opioid use and dependence (user demographics), a review of the various classes of opioids, an overview of each medication, its indication, to whom it is administered, and how it works, and treatment settings for medication-assisted treatment. Medications will include: acamprosate, disulfiram, naltrexone, methadone, and buprenorphine. The training will conclude with a session on talking to clients about their use of medications, and strategies to address health disparities through increased access to medication-assisted treatment.
Educational Objectives:	At the end of the daylong training, participants will be able to: <ol style="list-style-type: none">1. Describe at least three (3) acute and chronic effects of alcohol, heroin, and other opioids.2. Describe the prevalence of and key populations impacted by alcohol and opioid use disorders.3. Provide examples of three (3) medications that are available to treat alcohol and opioid use disorders.4. List and explain at least two strategies that can be used to address health

	<p>disparities through increased access to medication-assisted treatment.</p> <p>5. Identify and describe a medication that can be used to reverse overdoses in opioid using individuals.</p>
<p>Continuing Education:</p>	<div data-bbox="332 226 519 394" data-label="Image"> </div> <p>The training course meets the qualifications for the provision of six (6) continuing education credits/contact hours (CEs/CEHs).
