Pacific Southwest Addiction Technology Transfer Center

Date and Time:	Monday, November 18, 2019; 9:00am-4:30pm Sign-in will begin at 8:30 a.m. and the training will begin promptly at 9:00 a.m.
Location and Parking Information:	TAY Academy 2025 E. 7th Street Long Beach, CA 90804
Who Should Attend:	This six-hour training is free and is open to staff who are interested in learning about strategies to intervene with clients who have co-occurring trauma and substance use disorders. <ul style="list-style-type: none">• Psychologists• LMFTs and LCSWs• Registered Nurses• Certified Substance Use Disorder Treatment Counselors• Other Behavioral Health Specialists/Clinicians
Training Description and Core Clinical Components:	The purpose of the "Trauma Informed Care Approaches for Working with Individuals with Substance Use Disorders" training is to introduce participants to the presentation of trauma among clients and the relation between traumatic experience and the development of substance use disorders. Key topics include: an overview of trauma presentations across the lifespan; socioecological conceptualizations of early childhood trauma leading to later life judicial and medical impairments; and skills and strategies to intervene with clients who have co-occurring trauma and substance use disorders.
Learning Objectives:	At the conclusion of the daylong training, participants will be able to: <ol style="list-style-type: none">1. Identify three (3) examples of "Big T" OF "little t" stressors2. Describe two of the major findings from the ACE study relating childhood experience to substance use and mental health impairment3. Demonstrate at least one technique for engaging consumers in a trauma-informed approach4. Describe at least one impact of trauma on cognition and physiological functioning5. Identify one Domain of Trauma-Informed Care and how, organizationally, activating this domain enhances trauma care

Trainer:	Andrew S. Kurtz, MA, MFT, UCLA Integrated Substance Abuse Programs
