## REGISTRATION:

**Training 1: May 29th, 2020 [CLICK HERE](#)**

**Training 2: June 12th, 2020 [CLICK HERE](#)**

## PRESENTERS:

**Anthony Estreet, PhD,  
LCSW-C, LCADC,**

Executive Director, Next  
Step Treatment Center.

Anthony is an  
experienced

client-centered therapist coupled with  
strengths in developing and delivering  
effective training.

## COURSE DESCRIPTION:

This course focuses on topics and issues for behavioral health supervisors to help enhance and expand your process as a clinical supervisor. Throughout the training, we will discuss a variety of supervision topics including various models of supervision, addressing ethical dilemmas with supervision, as well as technology and supervision.

## OBJECTIVES:

- Define the significant roles of clinical supervisors
- Explain the significance of a mentoring relationship in supervision
- Define the ethical issues in clinical supervision including dual relationships and confidentiality
- Analyze the ethical obligations and ethical decision-making of the supervisor
- Discuss the importance of collaboration in the development of an effective supervisory relationship
- Discuss the key benefits of using technology to extend the reach of clinical supervision
