| <p>Speaker:</p> | <p>James Peck, PsyD, UCLA Integrated Substance Abuse Programs</p> |
| <p>Who Should Attend:</p> | <p>This three hour live, virtual training is free and is open to providers including:</p> <ul style="list-style-type: none"> • Psychologists • LMFTs and LCSWs • Registered Nurses • Certified Substance Use Disorder Treatment Counselors • Other Behavioral Health Specialists/Clinicians |
| <p>Training Description:</p> | <p>This interactive live virtual training will introduce participants to the subject of case management for working with clients and patients before, during, and following active treatment for a substance use disorder. The key differences between case management and clinical treatment will be explored. The training will introduce the foundational principles of case management theory and present the four prevalent models of case management including the brokerage/generalist model and the strengths-based model. The training will present the core functions of case management framed as the 3 C’s (Connection, Communication, and Coordination), and explore the three types of agency coordination by which case management can be facilitated. Throughout the training, individuals will have the opportunity to operationalize concepts through active participation in multiple interactive exercises.</p> |
| <p>Educational Objectives:</p> | <p>At the conclusion of the training session, participants should be able to:</p> <ol style="list-style-type: none"> 1. Describe at least three key differences between case management and clinical treatment 2. Identify at least three principles of case management theory 3. Describe at least two models of case management 4. Explain how to apply the three key functions of case management to complex |
