<b>Training Description and Core Clinical Components:</b>	<p>For Tribal people on Turtle Island, current and past political and social events help shape the context of their lives in ways that many other Americans do not experience. Dr. Brown will discuss how the western psychological screening and assessment has left American Indian people without tools to adequately address psychological conditions. She will provide findings from a Tribal assessment; examples of Tribal screening and assessment; and present the concept of screening and assessment as a sacred trust. Participants will explore how to incorporate building sacred trust into their daily practices.</p>

<b>Learning Objectives:</b>	<p>At the end of the training, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Identify at least two (2) limitations of using Western psychological approaches in Tribal communities</li> <li>2. Explain at least two (2) elements of the definition of Indigenous Psychological Care</li> <li>3. Recognize at least two (2) skills to implement decolonial psychological approaches in their practice</li> <li>4. Specify at least three (3) findings about implementation from community interviews with policy and Tribal partners.</li> </ol>
