

In 2020, 1 in 66 adults in the U.S. was under community supervision¹ and 60 to 80% of individuals on probation have a substance use disorder².

OBJECTIVES:

- Engage key stakeholders to identify target concepts for education/training for community supervision professionals (CSPs)
- Develop a brief, digestible, evidence-based toolkit for CSPs focused on OUD and medications to treat OUD (MOUD)
- Provide a sustainable training and workforce development tool for CSPs to better serve clients with OUD

MOUD TOOLKIT CORE ELEMENTS:

- 7 self-paced learning modules (12-24 minutes)
- MOUD implementation/expansion guides
- Evidence-based practice bulletins
- Handouts for both staff and individuals on supervision

ACCESS TO THE MOUD TOOLKIT:

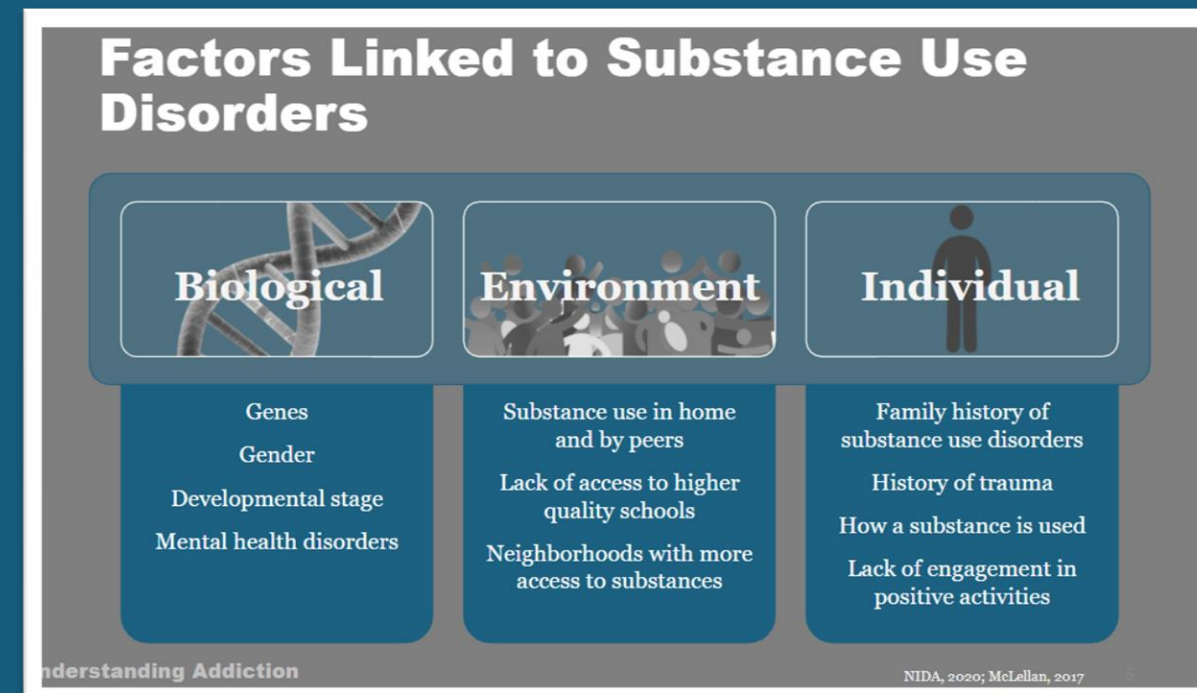

- HealthKnowledge.org**, an online workforce development learning platform developed by the Addiction Technology Transfer Center (ATTC) Network
- Opioidresponsenetwork.org**, Education: Community Supervision
- jcoinctc.org**, JCOIN Training & Engagement Center (JTEC), learning, skill building, and facilitation for justice and health

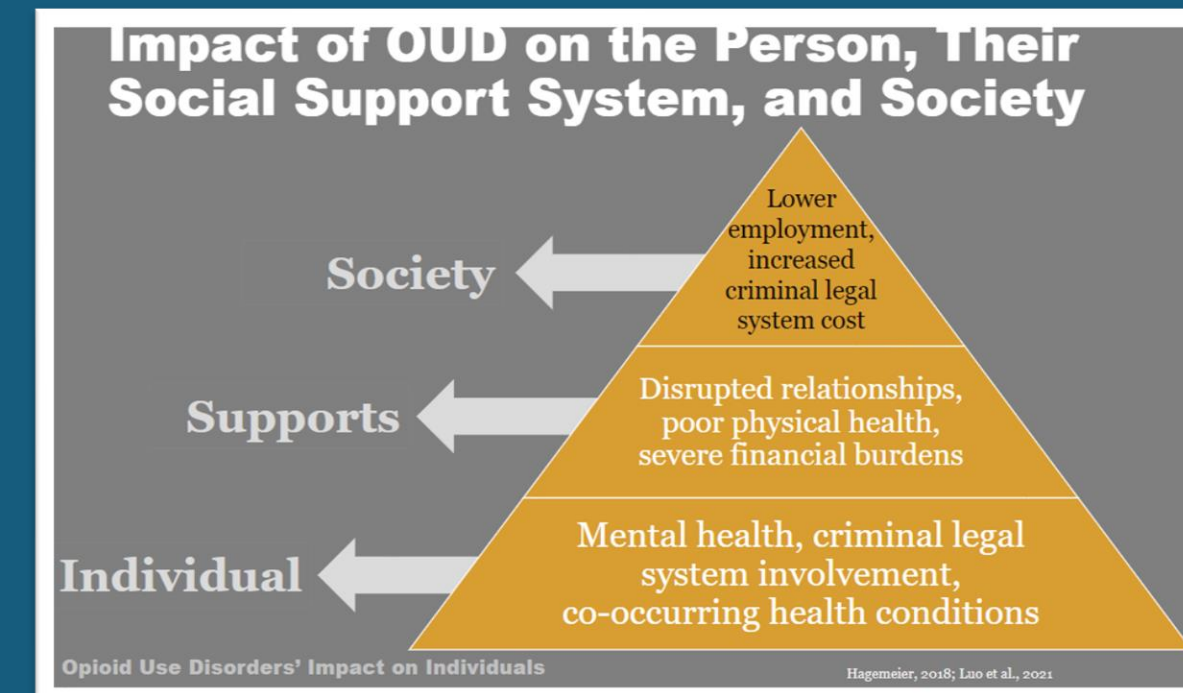

Enhancing Recovery during Community Supervision—Medications for Opioid Use Disorder (MOUD): A

Toolkit

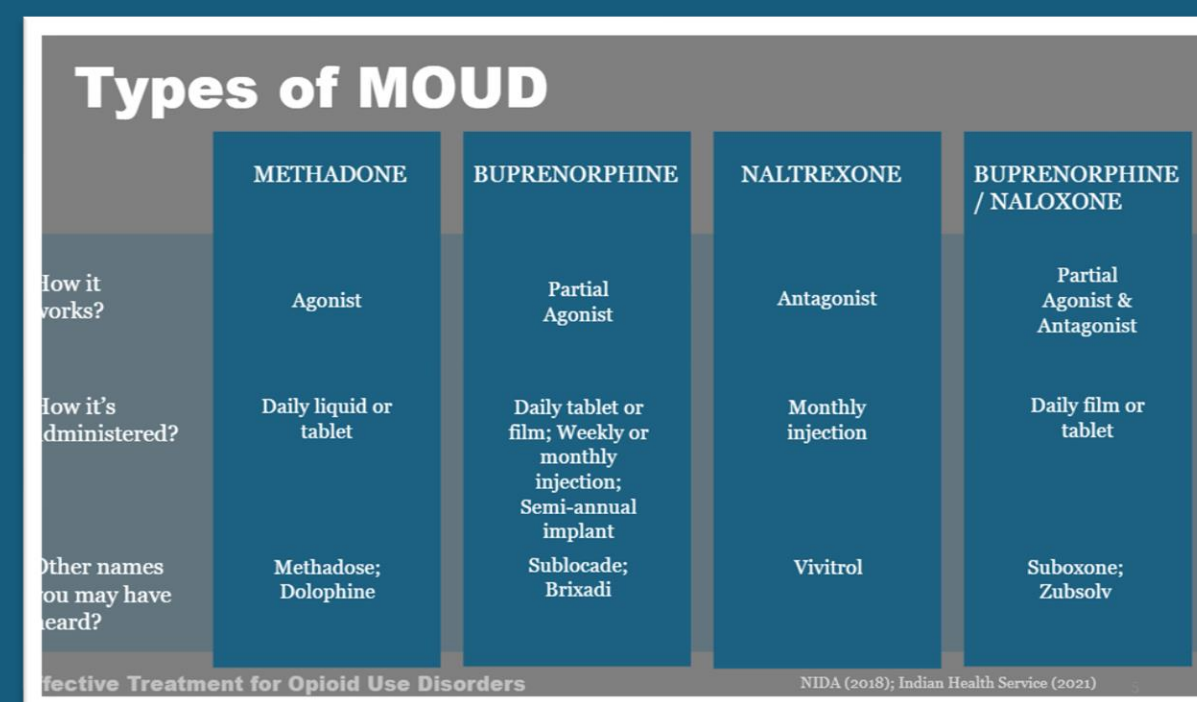

Understanding Addiction

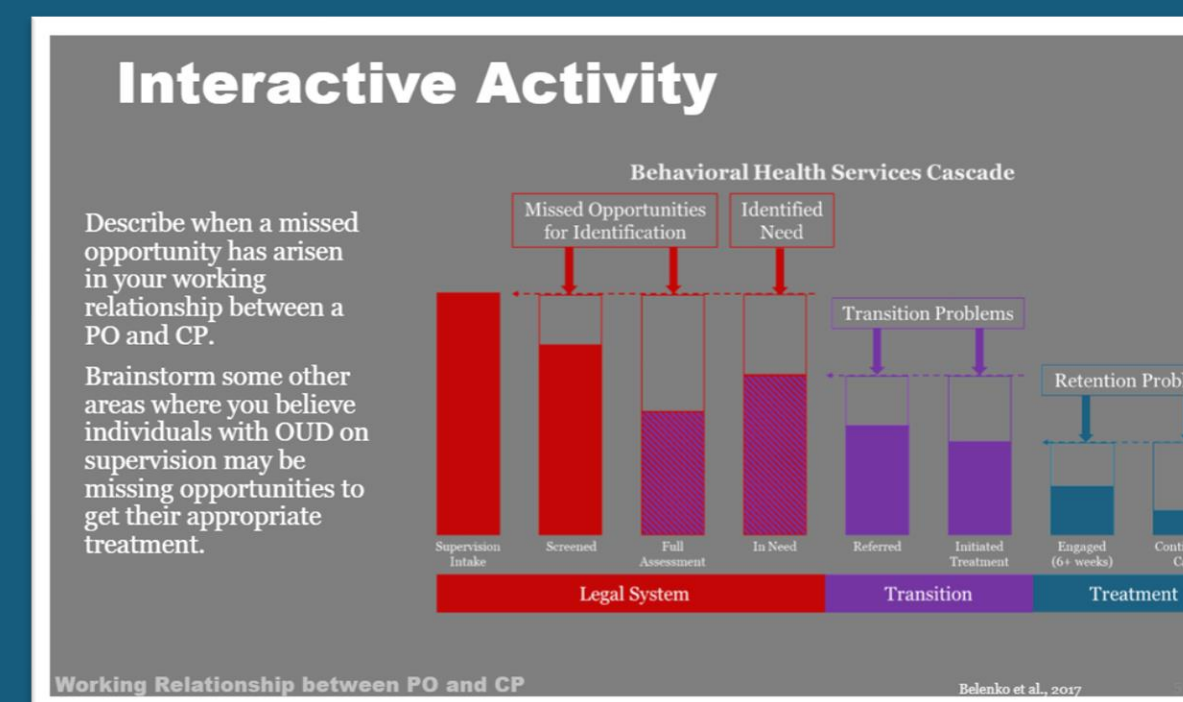

The Impact of OUD

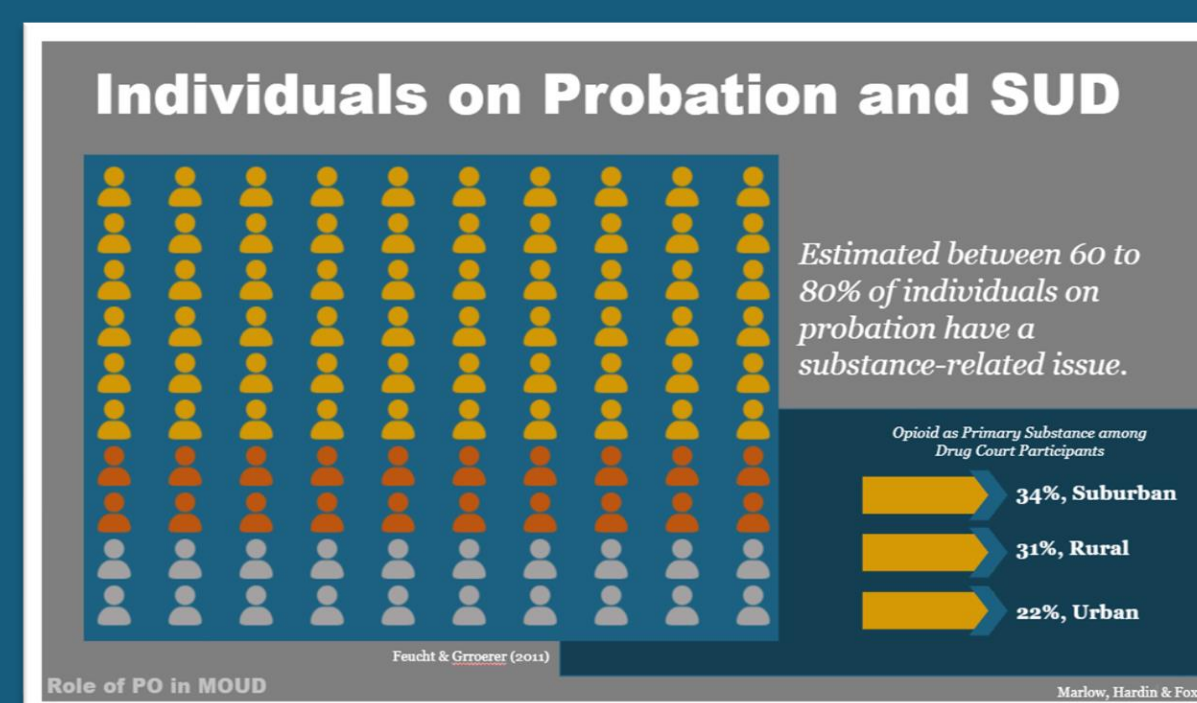

Effective Treatment for OUD

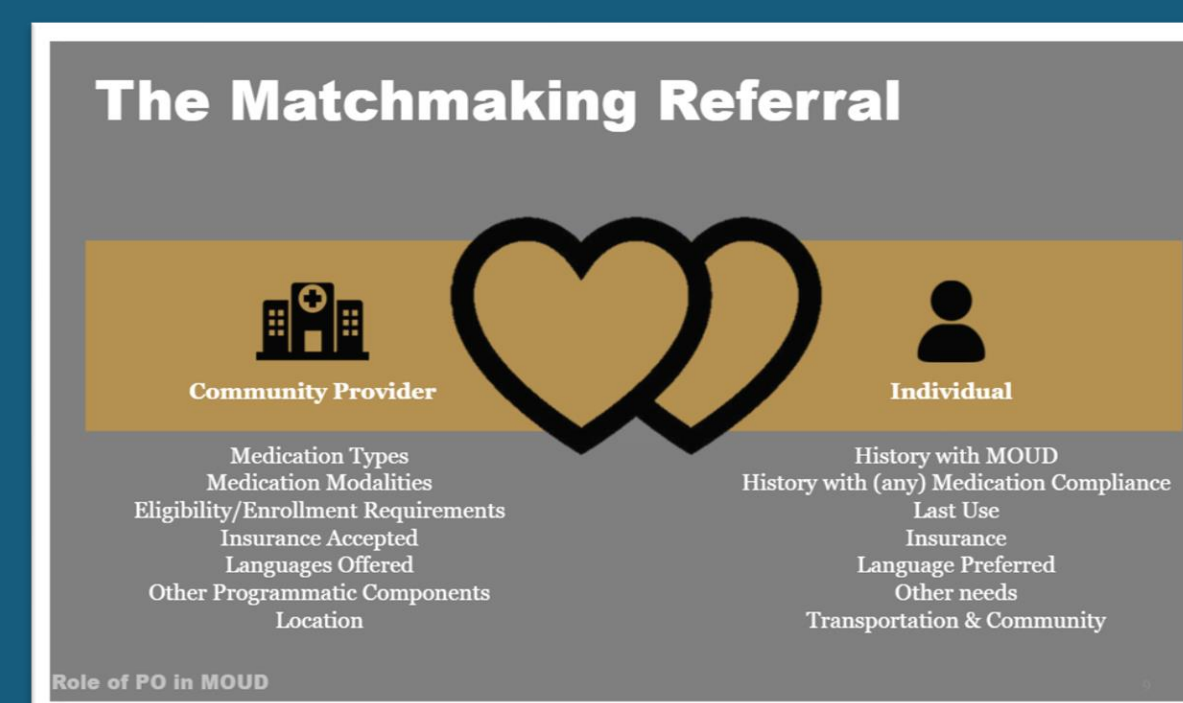

Working Relationship between Pos* and CTPs*

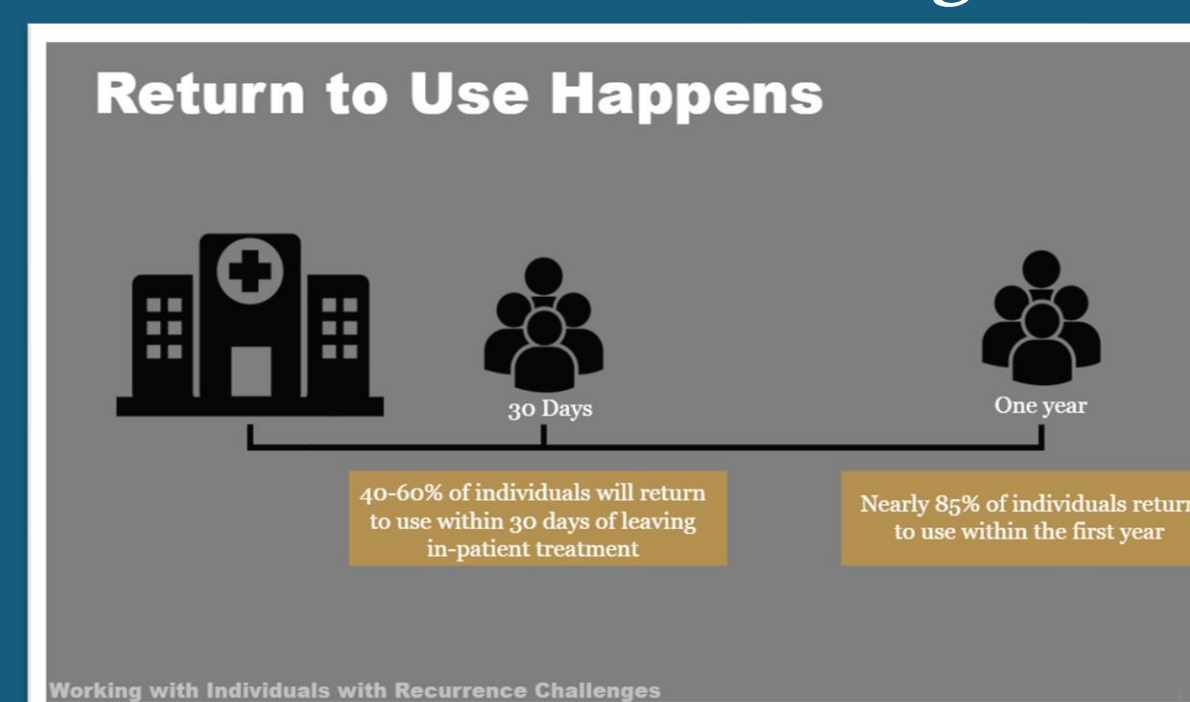

Role of the PO in MOUD Treatment

Role of the CTP in MOUD Treatment

Working with Individuals on Recurrence Challenges

*POs= Probation/Parole Officers; CTP= Community Treatment Providers
Funded (in part) by grant nos.: U01-DA050442 (NIDA); 1H79TI085588 (SAMHSA)

WHAT DO WE KNOW?

- Training for integration of OUD treatment during community supervision is needed to save lives
- Community supervision professionals have limited time and there are barriers to in person training
- Understanding roles and expectations, including program participants, is critical
- MOUD training reduces barriers to supporting recovery and rehabilitation for people under supervision

TOOLKIT REACH

Launched September 1, 2022

- As of 5/14/2024
 - 915 individuals have accessed the modules
 - 43% completed all modules
 - 45 States
 - International reach- Qatar, Chile, England, India

Workforce accessing toolkit:

- Academia
- Community Organizations (treatment, recovery)
- Community Corrections
- State and Government
- Tribal Administration

KEY TAKEAWAYS

- Community Supervision is a critical point for intervention and continuation of care
- This toolkit was designed to meet CSPs' needs to better serve clients with OUD while providing a sustainable training and workforce development tool
